OUR BUSINESS

We reduce your Gas Bill 15 to 30 per cent by attaching our

Standard Automatic Gas Regulator

to the house gas pipe. This machine controls the pressure, prevents waste and blowing and lessens breakage of globes, chimneys and mantles.

On notification we stop leaks and flickering of lights, furnish new tips and burners free whenever necessary.

The monthly charge includes the above service and use of our regulator.

New York Life, Equitable and other big insurance companies have loaned millions on Oakland real estate. Oakland business men have just subscribed and paid in one million cash capital for a fire insurance company. Southern Pacific terminates here; Western Pacific terminates here; Union Pacific terminates here; Santa Fe terminates here; San Francisco, Oakland and San Jose terminates here; Oakland and Antioch now building. Grasp this: Thirty-two million people traveled on Oakland ferry system in 1911! Southern Pacific has just spent fourteen millions here and is spending ten millions more. What does this mean? Oakland is one of the cities of the United States that owns and controls its own water front (thirty miles) and is spending millions to make it ready for Panama Canal traffic. Oakland is opposite San Francisco and the Panama-Pacific World's Fair site. It is on the land or continental side of the great San Francisco Bay and is destined to be the New York of the Pacific Ocean.
